**CONSOLIDATION IN TOWER SECTOR**

# Brookfield Towers Over Indus with \$2.5B ATC India Buyout

Challenges abound for current market leader Indus, which has yet to recover ₹10Kcr dues from VI

**Kalyan Parbat**

**Kolkata:** Brookfield's recent \$2.5-billion buyout of American Tower Corp's India unit is likely to bolster the Canadian asset manager's arsenal to challenge current market leader Indus Towers, analysts said.

both tower companies offering a slew of new products as well as aggressive rental deals to woo top telco clients, especially while negotiating long-term contract renewals, the analysts told ET.

"The ATC India buyout will give Brookfield a larger tower footprint and more assets to compete with Indus, and likely result in both tower companies offering a combina-

tion of new products such as in-building solutions (IBS) as well as attractive rental deals/discounts while negotiating long-term tower contract renewals with large telco clients in future," said Rohan Dhamija, head (India & Middle East) at management consulting firm, Analysys Mason.

He, though, added that the Brookfield-ATC India deal would pave the way for two dominant tower companies in a three-player Indian telco market, which is an ideal competitive structure as it will ensure an overall balance of pricing power between the telcos and tower companies.

Earlier this month, Brookfield trumped Infrastructure investment group I Squared Capital to buy 100% ownership in ATC India in a \$2.5 billion (about ₹21,000 crore) all-cash deal.

The deal, which is likely to close in the second half of 2024, marked Boston, US-based ATC's exit from India, consolidating the country's tower sector to two players — Brookfield and Indus Towers. ATC had earlier underlined business challenges after its biggest Indian client, Vodafone Idea (VI) failed to make full contractual payments of its dues.

Brokerage CLSA estimates that post-ATC deal, Brookfield will control 235,000 to-

wers, which is more than the 204,212 of Indus, and the two combined will own 80% of the sector's tower assets in India with the balance largely with state-run BSNL. In August 2020, Brookfield had acquired Jio's towers for Rs 36,900 crore and its fibre assets for about Rs 91,979 crore.

"Brookfield's acquisition of ATC's towers will also boost Jio's 5G rollout. Jio is (already) the anchor tenant to Brookfield with a 30-year non-cancelable 'take or pay' master service agreement (MSA), valid till August 2060," CLSA said in a research note seen by ET.

Brookfield's towers are strategically located for pan-India 4G and 5G coverage and are lar-

gely connected by fibre backhaul, which provides a unique platform to capitalise on the rollout of 5G and future technologies in both dense urban and remote rural areas. Indus currently operates India's largest telecom tower network.

Analysts, however, expect the latest consolidation in India's tower sector to pose challenges for current market leader, Indus, which has failed to recover nearly Rs 30,000 crore in outstanding dues from cash-strapped client, VI.

"VI has not been able to clear its backlog of dues (to Indus). As VI continues to face liquidity issues, its inability to pay serves as a risk for Indus Towers," BNP Paribas said.

# DBS will Anchor PCBL's ₹700-cr Issue to Finance Aquapharm Buy

**Sangita Mehta**

**Mumbai:** PCBL Ltd, formerly known as Philips Carbon Black Ltd, is raising funds from DBS Bank to part finance its proposed acquisition of Aquapharm Chemicals, said people with knowledge of the matter. The Singapore-based bank has committed ₹200 crore and will be the anchor investor in PCBL's ₹700 crore proposed bond issue, the people cited above said.

Stock exchange-listed PCBL Ltd announced the acquisition of Aquapharm Chemicals Pvt Ltd last November for ₹3,800 crore. It informed the exchanges that the acquisition would be done through a wholly owned subsidiary company, Advaya Chemicals Industries Ltd, which was incorporated on January 11.

Sanjiv Goenka-promoted PCBL Ltd has proposed to raise ₹700 crore bonds for five-year, offering 8.75% payable annually. The bonds will open for subscription for qualified institutional investors later this week. The proceeds from the bonds will be used to subscribe to the optionally convertible debentures to be issued by Advaya Chemicals Industries Ltd.

DBS Bank declined to comment. PCBL had informed the stock exchanges on January 15 that its board has approved a proposal to raise ₹700 crore bonds.

While announcing the acquisition last November, PCBL had stated that the acquisition will be financed through a mix of internal accruals and external funds raised by the company or its associates.

In a rating report on PCBL dated January 11, Crisil stated that PCBL's "liquidity is expected to moderate due to its utilisation for funding part of the acquisition. Nevertheless, the company is expected to maintain sufficient liquidity."

Healthy cash accrual will be sufficient to fund the repayment obligations and incremental working capital requirement," Crisil has assigned 'AA stable' rating for the PCBL's proposed bonds. PCBL has liquidity with annual cash accrual of Rs 400-500 crore over the medium term.

## Driving India's Clean Energy Transformation
